My Story

I started writing code when I was ten years old because I found it very cool and thought it could give me superpowers.

During the years, I worked on independent projects, founded and developed multiple startups, built and led remote teams, worked for big companies, and was involved in big and small open-source projects.

Main Skills

JavaScript, TypeScript, Solidity, Ruby, HTML, CSS, SQL, PHP, Java, C#, C++, C, React, Webpack, Kubernetes, Docker, AWS, Ansible, Terraform, PostgreSQL, MySQL, MongoDB, Redis.

2017-2022

Team leader & Senior software engineer

Redhat
